# Explanation of the following ‘Category’ pages (1)

At the next 24 pages we show you some information per category. In the ‘Insegna dell’Anno Italia’ 2021-2022 election and the ‘Insegna Web dell’Anno Italia’ 2021-2022 election are 24 equal categories and 3 separate categories for ‘Insegna dell’Anno Italia’ 2021-2022. We show you per category the participants, the nominees and the winner. We only show the categories where a winner could be announced. Before the information is shown, we will explain shortly what we mean with ‘Participants’ and ‘Nominees’ per category in this report.

## ‘Participants’

1. All retail chains with a minimum of five stores in Italy and retail chains with more than 30 stores in Europe, with at least three of which are located in Italy, could be voted for/evaluated in the ‘Insegna dell’Anno Italia’ 2021-2022 election. They were presented in a dropdown list in the questionnaire.

The names of the retailers we mention in this report as ‘Participants’ are the retailers that have actually been voted for/evaluated by the respondents that filled in the questionnaire of the 2021-2022 edition.

2. All retail chains that met the above requirement and have a webshop - selling products in Italy - and all ‘pure players’ in Italy could be voted for/evaluated in the ‘Insegna Web dell’Anno Italia’ election, edition 2021-2022. They were presented in a dropdown list in the questionnaire.

The names of the (online) retailers we mention in this report as ‘Participants’ are the (online) retailers that have actually been voted for/evaluated by the respondents that filled in the questionnaire of the 2021-2022 edition.

# Explanation of the following 'Category' pages (2)

## **'Nominees'**

The (online) retailers that have reached the minimum voting limit for the specific category (380, 200 or 150 votes) with a minimum of two and a maximum of five nominees per category.

## **'Winner'**

Only one of the nominees can be the winner of this category. The 'category winner' will be the nominee with the highest, corrected\* final mark.

*\*A correction based on the number of assessments is subtracted from the average final grade to calculate the corrected final grade. Simply put, the correction has to do with the fact that it says more if 500 people give you a grade '7', than if 100 people give you a grade '7'.*
